Clients rely on Natalia Iamundo to navigate the increasingly complex legal and technological landscapes of commercial real estate, ensuring they can make informed decisions with confidence.

Natalia brings extensive experience across all facets of commercial real estate, guiding clients through high-stakes acquisitions, development projects, financings and leasing arrangements. A co-lead of the Proptech specialty group at Bennett Jones, Natalia is at the forefront of integrating sustainability and digital transformation into the built environment. She delivers unique insight into the legal and business considerations of this evolving area and is well versed in the trends which are influencing the way that space of all varieties is now being developed and occupied.

A sought-after thought leader, Natalia publishes frequently on the impact of technological innovations on the real estate sector.
